COVID-19 restrictions: Regional Stay Home Order
(Southern California Order in Effect as of Dec 6, 2020, 11:59 PM)

The Regional Stay Home Order, announced December 3, 2020, and a supplemental order, signed December 6, 2020, will go into effect at 11:59 PM the day after a region has been announced to have less than 15% ICU availability.

- The supplemental order clarifies retail operations and goes into effect immediately;
- They prohibit private gatherings of any size, close sector operations except for critical infrastructure and retail;
- And require 100% masking and physical distancing in all others.

Once triggered, these orders will remain in effect for at least 3 weeks. After that period, they will be lifted when a region’s projected ICU capacity meets or exceeds 15%. This will be assessed on a weekly basis after the initial 3 week period.

*Surge capacity beyond these numbers may be possible based on individual hospital’s bed and staff surge plans.

Statewide Metrics

- 63.9 New COVID-19 Positive Cases Per Day Per 100k Residents
- 11.3% 7-Day Positivity Rate
- 2.1% ICU Availability

Source: State of California

Prepared by Mayor’s Innovation Team
New reopening metrics and tier assignment were previously announced on Tuesdays. On November 16, the State announced that they may start reporting metrics more frequently and on days other than Tuesdays.

All metrics are evaluated on a 7-day lag. 
*Current data range: 11/29/20 - 12/5/20*

### New COVID-19 positive cases per 100K
- **7-Day average new positive cases per 100K residents**

### Adjusted case rate for tier assignment
- An adjustment factor for counties that are testing above or below the state average. This adjusted rate is used for “new case” metric rather than the raw case rate

### Positivity Rate
- 7-day average of positive lab-confirmed COVID-19 cases divided by total tests

### Health Equity Metric
- The test positivity rate in the Lowest Healthy Places Index Quartile Census Tracts.

COVID-19 DATA SUMMARY

United States Update
COVID-19 US Cases - Per Capita State Comparisons (TOTAL CASES)
As of December 18, 2020, 3:00 PM

Covid-19 cases are on the rise across the entire United States. The top five states, based on overall cases include:

#1: 1,764.4K cases in California (+41.0K) - 4460 per 100K
22.2K deaths in California (+300) - 56.0 per 100K

#2: 1,556.0K cases in Texas (+16.8K) - 5421 per 100K
25.0K deaths in Texas (+294) - 86.9 per 100K

#3: 1,162.0K cases in Florida (+12.8K) - 5455 per 100K
20.7K deaths in Florida (+96) - 97.1 per 100K

#4: 886.8K cases in Illinois (+7.4K) - 6960 per 100K
16.2K deaths in Illinois (+221) - 127.2 per 100K

#5: 828.2K cases in New York State (+12.7K) - 4237 per 100K
28.3K deaths in New York State (+122) - 145.0 per 100K

Rounding out the top ten are:
Ohio, Pennsylvania, Georgia, Tennessee, Michigan

California ranks...
#1 in Cases
#39 in Cases per 100K

#3 in Deaths
#40 in Deaths per 100K
