COVID-19 DATA SUMMARY

Data Snapshot
New reopening metrics and tier assignment were previously announced on Tuesdays. On November 16, the State announced that they may start reporting metrics more frequently and on days other than Tuesdays.

All metrics are evaluated on a 7-day lag.

### New COVID-19 positive cases per 100K
7-Day average new positive cases per 100K residents

### Adjusted case rate for tier assignment
An adjustment factor for counties that are testing above or below the state average. This adjusted rate is used for “new case” metric rather than the raw case rate.

### Positivity Rate
7-day average of positive lab-confirmed COVID-19 cases divided by total tests

### Health Equity Metric (starting 10/6)*

Key Indicators
Cases, Deaths, Testing, and Hospitalizations
LA County has established thresholds for additional actions if cases or hospitalizations continue to increase:

**THRESHOLD 1:**
- Cases (5-day avg): 4,000
- Total Hospitalizations: 1,750

Outdoor and indoor dining at restaurants, breweries, wineries and bars will be prohibited and these businesses will only be able to offer pick-up and delivery.

**THRESHOLD 2:**
- Cases (5-day avg): 4,000
- Total Hospitalizations: 1,750

A Safer at Home Order will be instituted for three weeks. A 10:00 p.m. to 6:00 a.m. curfew would be mandated, with essential workers exempt.

**KEY TAKEAWAYS**

The past seven days have seen an average daily increase of 5,612 new cases.

The past seven days have seen an average daily increase of 29 new deaths.

Source: Los Angeles County New Cases and New Deaths, 7-Day Average

Note: Between July 3-5, the County took their systems offline for an upgrade. Additionally, several testing sites were closed and at least one major lab did not report case results. Deaths were likely undercounted because the necessary verification steps extended beyond the weekend due to holiday. As a result, all data during this time period is skewed.

New Los Angeles County case counts for 10/22-10/24 are inflated due to data backlogs from 10/17-10/21.
